## UNOFFICIAL/PERSONAL USE OF TELEPHONES:

Personal calls cannot result in a charge to the government even if the employee intends to reimburse the government. Calls into MCAGCC housing or local community do not incur a toll cost. Personnel are authorized to use government telephones to place local calls provided they meet the following criteria:

1. Does not adversely affect the mission of the employee's organization or the performance of the employee's official duties.
2. Are of a reasonable duration and frequency.
3. Reasonably cannot be made at another time. Examples of permissible types of local personal calls include: Checking on an immediate family member, making or canceling personal appointments, checking on the status of home or automobile repairs, notifying family of overtime requirements or other changes in schedules.

Note: Supervisors of government employees, both military and civilian are responsible for ensuring that authorized use does not become abused. Placing personal, long-distance toll calls from a government extension without alternate billing is prohibited and violates federal law.

# GENERAL INFORMATION

The Combat Center Telephone Directory is government property. It is published for the official use of personnel of the Combat Center and other government activities. Subscribers in possession of the directory are responsible for its safekeeping. Information contained in the directory will not be transmitted to any unauthorized person or agency.

## EMERGENCY CALLS

Relinquish your line immediately for an emergency call. Emergencies arise infrequently but when they do, your cooperation is essential.

## PUBLIC PHONES

Public pay stations located throughout the Combat Center are owned, operated and maintained by AT&T through GTE California for the convenience of the public. Any questions or problems regarding pay telephones should be made to Marine Corps Community Services (MCCS), ext. 830-6163.

## MONITORING

Communications systems are for transmitting official government information only, and are subject to communications security monitoring and communications management monitoring at all times.

Using the MCAGCC telephone system constitutes consent to communications security and management monitoring in accordance with DoD Directive 4640.1.

Telephone communications security monitor provides a basis for analysis for determining the degree of security being afforded to transmission and to:

1. Advise commanders on actual or possible security compromises.
2. Improve the security protection of telephone communications against hostile intelligence exploitation.

## ADDITIONAL INFORMATION

Local requests for all commercial telephone directories as well as Combat Center directories are handled through the Telephone Branch, ext. 830-7741.

## INSTRUCTIONS AND INFORMATION

### HOW TO PLACE LOCAL OFFICIAL CALLS

**CALLING AREA:** To call off base, dial 99, then dial the number listed in the GTE Telephone Directory. (Personal calls outside the local calling area must have alternate billing.)

## TELEPHONE ETIQUETTE

TELEPHONE ETIQUETTE IS IMPORTANT. The courtesy and efficiency of the person on the other end of the line often forms a caller's impression of a business office.

To help make that positive impression, here are 13 tips on receiving a telephone call.

1. Answer as promptly as possible and answer each call as if it was the first call you received that day.
2. Identify yourself when answering.
3. Speak distinctly and pleasantly.
4. Avoid making abrupt, trite or misleading statements.
5. When a call comes to your telephone concerning some matter outside your department, let the caller know at once that someone else should handle the call. Do not let the caller tell their story unnecessarily. Nothing is more irritating to a caller than having to repeat a message to several people.
6. Give the caller a report and make an offer to help. (i.e., "He stepped out of the office, may I ask him to call you?")
7. When necessary give the caller an accurate phone number or extension where the person may be reached.
8. Volunteer your own assistance. "May I help you?" or "Could anyone else help you?" often leaves a good impression.
9. Request identity of a caller only when necessary and do so in a tactful manner.
10. Explain off-the-line delays. Be sure to let the caller know you are going to have to put the phone down and why.
11. Take messages willingly.
12. Transfer the call elsewhere only when the correct number is known. No one likes the "run around."
13. Say good-bye pleasantly and hang up gently.

# GENERAL INFORMATION

## CLASS OF TELEPHONE SERVICE

### DSN

Telephones authorized for conducting official government business via the Defense Switched Network to other DoD activities. These telephones access on-base telephones.

### OFFICIAL

Telephones authorized for the transaction of official government business. This service provides access to the commercial telephone system and toll charges are paid from appropriated funds. This telephone service provides access to on-base telephones, local and long distance.

### UNOFFICIAL

Telephones authorized for unofficial use may or may not have access to the local commercial telephone system. Non-appropriated funds or individual subscribers pay charges. This class is further designated as:

B-2: Telephones installed for the use of commercial concerns, such as contractors, concessionaires or other business activities, to include Marine Corps Community Services activities as identified in the Navy Comptroller Manual. This class is restricted to base but may have access to the commercial telephone system.

### OFFICIAL RESTRICTED

Telephones for official government business transactions but are restricted to the base.

## SPECIFIC CLASSES OF SERVICE

The MCAGCC Telephone Branch assigns specific classes of commercial service to telephones to meet calling needs. Some presently available services are:

LOCAL AREA: Identified by prefixes 228, 361, 362, 363, 365, 366, 367, 368, 369, 401, 493, 623, 830, 865 and 910.

MORONGO BASIN: Includes the calling areas of Morongo Valley to Wonder Valley.

SOUTHERN CALIFORNIA: Identified by area codes 213, 310, 323, 424, 562, 619, 626, 714, 760, 805, 818, 909, 949, and 951.

CONUS: Includes calling areas within the Continental United States and Puerto Rico.

### DSN (DEFENSE SWITCHED NETWORK)

Pages 50-56 contain DSN Listings for U.S. Military installations.

#### AUTHORIZED USERS

MCAGCC DSN prefix is 230-XXXX. DSN use is limited to subscribers with DSN access for official calls only. Users of Class A (without DSN access), B and C telephone service are not equipped or authorized to place outgoing DSN calls.

#### SECURITY

DSN is a non-secure voice network. Users are reminded to exercise care to avoid divulging or alluding to classified information in accordance with established security regulations.

#### TIME LIMITATION

Subscribers placing DSN calls should limit their calls to a maximum of five minutes to allow all subscribers access to the DSN lines.

#### DIALING PROCEDURES

To place routine DSN calls, subscribers with DSN service dial 94 then dial the desired seven-digit DSN number. To place overseas DSN calls to the Pacific region, dial 94+315+7-digit number.

#### RESTRICTIONS

\*\*Unofficial or personal calls are NOT AUTHORIZED within the DSN system\*\*

# GENERAL INFORMATION

## SECURE COMMUNICATIONS

### SECURE TELEPHONE COMMUNICATIONS

Secure Telephone Units (STU-III's) are employed throughout the Combat Center and all major commands located at the Combat Center. The STU-III allows for both clear and secure communications between subscribers equipped with these instruments.

If you have a STU-III and require secure communications with a second party, contact that subscriber and ask if they have access or can gain access to a secure telephone (STU-III). Place your call, in the clear, to the desired number and follow the operation manual for going secure.

Contact your unit representative or the MCAGCC STU-III Coordinator at 830-6206 for additional questions or information.

## COMMERCIAL POWER FAILURE

In the event of a commercial power failure, holders of the Motorola STU-III can activate "Plain Old Telephone Service" (POTS) within the STU-III by depressing the CLEAR button.

Outgoing Calls: Depress the CLEAR button, receive a dial tone and dial the desired number.

Incoming Calls: When a ring is detected lift the receiver, depress the CLEAR button and begin talking.

Follow these procedures for each Outgoing and Incoming call until commercial power is restored.

Holders of the GE and RCA STU-III cannot use the STU-III, in any configuration until commercial power is restored.

## TO IMPROVE YOUR TELEPHONE SERVICE

- A. Use current Telephone Directory provided.
- B. When trouble is encountered when dialing (no ring tone, consistent wrong numbers, noise on line, etc.), call the CDD Help desk, 830-7141.
- C. Do not leave the handset off its cradle. Telephone exchange equipment automatically detect this condition and place that number out of service.
- D. Do not disconnect the telephone instrument from its cord or wall-jack. Telephone exchange equipment continues to access that number.
- E. Have pencil and paper available to record telephone number requested from Directory Assistance.
- F. Direct complaints about telephone service to the Telephone Officer, 830-7777.
- G. Direct information requests regarding telephone service to the Telephone Officer, 830-7777.
- H. Do not request off-base Directory Assistance unless ABSOLUTELY NECESSARY. Consult your city directory for these numbers. There is a charge for off-base information.
- I. Hang up for four seconds BETWEEN calls. This allows telephone switching equipment sufficient time to release the previous circuits.
- J. Do not place unauthorized personal equipment on the line, or attempt to relocate a telephone.

## TAMPERING WITH TELEPHONE EQUIPMENT

Telephone instruments, associated wiring and other items will not be moved, tampered with, connected or disconnected by personnel other than those specifically assigned to the Combat Center Communication and Data Directorate, Telephone Branch. Service is subject to immediate disconnection and removal if it is found that unauthorized personnel have, in any manner, tampered with the installation.

WARNING – UNOFFICIAL CALLS: Placing personal long distance calls and billing them to a government number violates federal law.
